

ALEXX EVAN MODELO

Full-Stack Developer | React & TypeScript | AI-Assisted Web Systems

Baguio, Philippines | alexxevanm@gmail.com
github.com/lexxmodelo | linkedin.com/in/lexx-modelo

PROFESSIONAL SUMMARY

Full-stack developer with hands-on agency experience building and shipping React/Next.js websites and internal web tools from concept to deployment. Strong in TypeScript, responsive UI/UX, SEO, QA, and AI-assisted development, with experience supporting production sites and working directly with PMs and business stakeholders. Comfortable owning small features end to end across frontend, APIs, PostgreSQL/Supabase, testing, and deployment.

CORE SKILLS

Frontend & UX: React, Next.js, TypeScript, JavaScript, Tailwind CSS, responsive design, UI/UX, user-centered design, accessibility, SEO, web performance

Backend & Data: Node.js, Express, Python, FastAPI, REST APIs, webhooks, PostgreSQL, Supabase, MongoDB, Redis

Delivery & QA: Git/GitHub, Docker, Vercel, Netlify, Hostinger, responsive QA, debugging, production support

AI-Assisted Engineering: Claude, Claude Code, OpenCode, OpenAI/Claude APIs, prototyping, refactoring, QA, research, documentation

Marketing & Creative: content scheduling, organic and paid ad creative planning, campaign assets, presentations

WORK EXPERIENCE

Full Stack Developer, Ascendyx

Apr 2026 - Present

Digital marketing and business growth agency

- Rebuilt the Ascendyx website from scratch with React, Next.js, TypeScript, and Python, owning UI/UX, implementation, SEO, performance, responsive QA, and Hostinger deployment.
- Delivered the Ascendyx site plus 3 portfolio showcase websites and contributed to 8+ web and digital projects, translating business briefs into responsive, user-centered experiences.
- Maintained 3 production websites, handling same-day frontend fixes, mobile responsiveness, performance work, and targeted feature improvements.
- Worked directly with the PM and CEO in a 4-person development team, using Claude, Claude Code, and OpenCode to accelerate implementation, debugging, QA, and documentation while retaining ownership of architecture and final quality.

Digital Marketing Specialist, Ascendyx

Concurrent Role

- Planned organic content and paid ad creative, produced campaign assets, and built high-fidelity content-calendar and presentation websites for campaign planning and client communication.
- Led production of 10+ client-facing presentations, proposals, project scopes, and solution documents, turning technical and marketing ideas into clear business materials.

IT Intern, City Government of Baguio

Jun 2025 - Jul 2025

Management of Information and Technology Division - city IT and digital services

- Interviewed 10+ stakeholders across 5 government offices and mapped workflows, converting operational pain points into requirements for a digital document-tracking system.
- Designed and presented a 10+ screen prototype approved by supervisors, with documented workflows projected to reduce manual processing time by 80-90%.

SELECTED PROJECTS

Tribit Labs | Startup website | tribitlabs.com

Designed, architected, built, and fully deployed the startup website from a blank concept, owning information architecture, UX, responsive implementation, content hierarchy, and production launch.

Tilted | Bankroll & Session Tracker (Mobile App + Site) | tiltedapp.site

Built an offline-first React Native/TypeScript app with SQLite, Zustand, biometric security, and local analytics; shipped its Astro + Tailwind marketing site on Netlify.

Content Calendar | Planning and presentation system

Built a high-fidelity content-planning web experience that organized campaign output, improved coordination, and supported clearer presentation of planned content.

Freedom Wall Analytics | Python, Playwright, BERTopic, Llama 3.3 70B

Built an end-to-end AI/data pipeline that collected and anonymized public discourse, clustered topics, used an LLM for labeling and classification, and surfaced results through an analytics dashboard.

EDUCATION & CERTIFICATIONS

Saint Louis University - B.S. Computer Science

Conferred Jul 2026

Enterprise Design Thinking Practitioner | Claude Code 101
